

# PC2H single point load cell

## product description

The PC2H is designed for front-end and rear-end bin lifting systems on waste collection vehicles. Certified by OIML, the PC2H is the ideal choice for trade approved waste collection applications. The fully welded, stainless steel design and rugged construction overcomes the problems associated with alternative aluminium load cell based systems.

Alternative load cell size and bolt hole configurations are available in the Flintec bin-lift load cell range; see the PC3H, PC5H, PC6H and PC7H single point load cells.

## applications

Front end (FEL) and rear end (REL) bin lifting systems for waste collection vehicles (RCV's).
